SUBJECT INDEX

A

Acquired immunodeficiency syndrome (AIDS)
Pulmonary tuberculosis in patients with acquired immunodeficiency syndrome, Goodman PC, 5(2):38
Adenopathy
Hilar and mediastinal adenopathy in sarcoidosis as detected by computed tomography, Sider L, Horton ES Jr, 5(2):77
Adult respiratory distress syndrome (ARDS)
Application of nuclear medicine techniques to the study of ARDS, Mishkin FS, Mason GR, 5(3):1
Aortic disease
Conventional CT of the aorta, Godwin JD, 5(4):18
Current role of conventional and digital aortography in the diagnosis of aortic disease, Sanders C, 5(4):48
Plain radiographic evaluation of the aorta, Chen JTT, 5(4):1
Transesophageal echocardiography in the assessment of aortic pathology, Shively BK, 5(4):40
Ultrafast computed tomography in the diagnosis of aortic aneurysms and dissections, Stanford W, Rooholamini SA, Galvin JR, 5(4):32
Aortography
Current role of conventional and digital aortography in the diagnosis of aortic disease, Sanders C, 5(4):48
Archiving film
Potential use of a 100-mm film digitizer and image processor for film archiving, Kono M, Yamasaki K, Ikeda M, 5(1):61
Artifact-suppressed adaptive histogram equalization (ASAHE)
Design and testing of artifact-suppressed adaptive histogram equalization: A contrast-enhancement technique for display of digital chest radiographs, Rehm K, Seeley GW, Dallas WJ, Ovitt TW, Seeger JF, 5(1):85

B

Bronchial artery embolization
Bronchial artery embolization therapy, Roberts AC, 5(4):60

C

Cardiac imaging
Cardiac imaging with technetium 99m-labeled isonitriles, Sinusas AJ, Beller GA, Watson DD, 5(3):20
Cardiac positron emission tomography: The foundations and clinical applications, Chan SY, Brunken RC, Buxton DB, 5(3):9
Imaging of the heart using metaiodobenzylguanidine, Dae MW, Botvinick EH, 5(3):31
Imaging techniques for assessing pulmonary artery hypertension and right ventricular performance with special reference to COPD, Matthay RA, Shub C, 5(3):47
Cardiac transplantation
The clinical role of radionuclide imaging in cardiac transplantation, Lee KJ, Wallis JW, Miller TR, 5(3):73
Chemotherapy
The microbiology, chemotherapy, and surgical treatment of tuberculosis, Boyars MC, 5(2):1
Chest radiography
Analysis of the solitary pulmonary nodule by means of digital techniques, Chiles C, Sherrier RH, 5(1):55
Computer-aided diagnosis in chest radiology, MacMahon H, Doi K, Chan H-P, Giger ML, Katsuragawa S, Nakamori N, 5(1):67
Current status of digital projectional radiography of the chest, Aberle DR, Hansell D, Huang HK, 5(1):10
Design and testing of artifact-suppressed adaptive histogram equalization: A contrast-enhancement technique for display of digital chest radiographs, Rehm K, Seeley GW, Dallas WJ, Ovitt TW, Seeger JF, 5(1):85
Digital mobile radiography, Sagel SS, Jost RG, Glazer HS, Molina PL, Anderson DJ, Solomon SL, Schwarberg J, 5(1):36
Enhancement and compression of digital chest radiographs, Cohn M, Trefler M, Young TY, 5(1):92
High-resolution digital imaging with storage phosphors, Fuhrman CR, Gur D, Schaetzing R, 5(1):21
Imaging of intrathoracic disease with indium 111-labeled leukocytes, Oates E, Ramberg K, 5(3):78
Newer imaging methods in chest radiography, Wandtke JC, 5(1):1
Pediatric digital chest imaging, Tarver RD, Cohen M, Broderick NJ, Conces DJ Jr, 5(1):31
Potential use of a 100-mm film digitizer and image processor for film archiving, Kono M, Yamasaki K, Ikeda M, 5(1):61
Preliminary experience with portable digital imaging for intensive care radiography, Marglin SI, Rowberg A, Godwin JD, 5(1):49
Radiologic manifestations of adult tuberculosis, Buckner CB, Walker CW, 5(2):28
Chronic obstructive pulmonary disease (COPD)
Exercise-induced changes in left ventricular function after phlebotomy in patients with polycythemic COPD, Milne N, Light RW, Chetty KG, 5(3):68
Imaging techniques for assessing pulmonary artery hypertension and right ventricular performance with special reference to COPD, Matthay RA, Shub C, 5(3):47
Communications system
Integrated radiologic information system: A radiology multimedia communication system, Hickey NM, Robertson JG, Coristine M, 5(1):77
Computed tomography (CT)
Conventional CT of the aorta, Godwin JD, 5(4):18
Hilar and mediastinal adenopathy in sarcoidosis as detected by computed tomography, Sider L, Horton ES Jr, 5(2):77
Ultrafast computed tomography in the diagnosis of aortic aneurysms and dissections, Stanford W, Rooholamini SA, Galvin JR, 5(4):32
Computer-aided diagnosis
Computer-aided diagnosis in chest radiology, MacMahon H, Doi K, Chan H-P, Giger ML, Katsuragawa S, Nakamori N, 5(1):67
Coronary artery disease
Applications of exercise radionuclide ventriculography in the clinical management of patients with coronary artery disease, Rozanski A, 5(3):37
Cardiac positron emission tomography: The foundations and clinical applications, Chan SY, Brunken RC, Buxton DB, 5(3):9
Cryptococcus neoformans
Pleural cryptococcosis, Conces DJ Jr, Vix VA, Tarver RD, 5(2):84

D

Digital imaging
Analysis of the solitary pulmonary nodule by means of digital techniques, Chiles C, Sherrier RH, 5(1):55
Computer-aided diagnosis in chest radiology, MacMahon H, Doi K, Chan H-P, Giger ML, Katsuragawa S, Nakamori N, 5(1):67
Current status of digital projectional radiography of the chest, Aberle DR, Hansell D, Huang HK, 5(1):10
Design and testing of artifact-suppressed adaptive histogram equalization: A contrast-enhancement technique for display of digital chest radiographs, Rehm K, Seeley GW, Dallas WJ, Ovitt TW, Seeger JF, 5(1):85
Digital mobile radiography, Sagel SS, Jost RG, Glazer HS, Molina PL, Anderson DJ, Solomon SL, Schwarberg J, 5(1):36
Enhancement and compression of digital chest radiographs, Cohn M, Trefler M, Young TY, 5(1):92
High-resolution digital imaging with storage phosphors, Fuhrman CR, Gur D, Schaetzing R, 5(1):21
Integrated radiologic information system: A radiology multimedia communication system, Hickey NM, Robertson JG, Coristine M, 5(1):77
Newer imaging methods in chest radiography, Wandtke JC, 5(1):1
Pediatric digital chest imaging, Tarver RD, Cohen M, Broderick NJ, Conces DJ Jr, 5(1):31
Potential use of a 100-mm film digitizer and image processor for film archiving, Kono M, Yamasaki K, Ikeda M, 5(1):61
Preliminary experience with portable digital imaging for intensive care radiography, Marglin SI, Rowberg AH, Godwin JD, 5(1):49

E

Echocardiography
Transesophageal echocardiography in the assessment of aortic pathology, Shively BK, 5(4):40
Embolization therapy
Bronchial artery embolization therapy, Roberts AC, 5(4):60
Exercise radionuclide ventriculography
Applications of exercise radionuclide ventriculography in the clinical management of patients with coronary artery disease, Rozanski A, 5(3):37
Exercise-induced changes in left ventricular function after phlebotomy in patients with polycythemic COPD, Milne N, Light RW, Chetty KG, 5(3):68

H

Heart
See **Cardiac imaging**

I

Indium 111-labeled leukocytes
Imaging of intrathoracic disease with indium 111-labeled leukocytes, Oates E, Ramberg K, 5(3):78
Integrated radiologic information system (IRIS)
Integrated radiologic information system: A radiology multimedia communication system, Hickey NM, Robertson JG, Coristine M, 5(1):77
Intensive care patients
Preliminary experience with portable digital imaging for intensive care radiography, Marglin SI, Rowberg AH, Godwin JD, 5(1):49

M

Massive hemoptysis
Bronchial artery embolization therapy, Roberts AC, 5(4):60
Metaiodobenzylguanidine (MIBG)
Imaging of the heart using metaiodobenzylguanidine, Dae MW, Botvinick EH, 5(3):31
Mobile radiography
Digital mobile radiography, Sagel SS, Jost RG, Glazer HS, Molina PL, Anderson DJ, Solomon SL, Schwarberg J, 5(1):36
Preliminary experience with portable digital imaging for intensive care radiography, Marglin SI, Rowberg A, Godwin JD, 5(1):49
Mycobacteria
The microbiology, chemotherapy, and surgical treatment of tuberculosis, Boyars MC, 5(2):1
The pathology and pathophysiology of mycobacterial infections, Haque AK, 5(2):8
Pulmonary disease caused by nontuberculous mycobacteria, Woodring JH, Vandiviere HM, 5(2):64

N

Nontuberculous mycobacteria
Pulmonary disease caused by nontuberculous mycobacteria, Woodring JH, Vandiviere HM, 5(2):64
Nuclear medicine techniques
Application of nuclear medicine techniques to the study of ARDS, Mishkin FS, Mason GR, 5(3):1
Applications of exercise radionuclide ventriculography in the clinical management of patients with coronary artery disease, Rozanski A, 5(3):37
Cardiac imaging with technetium 99m-labeled isonitriles, Sinusas AJ, Beller GA, Watson DD, 5(3):20
Cardiac positron emission tomography: The foundations and clinical applications, Chan SY, Brunken RC, Buxton DB, 5(3):9
The clinical role of radionuclide imaging in cardiac transplantation, Lee KJ, Wallis JW, Miller TR, 5(3):73
Exercise-induced changes in left ventricular function after phlebotomy in patients with polycythemic COPD, Milne N, Light RW, Chetty KG, 5(3):68
Imaging of the heart using metaiodobenzylguanidine, Dae MW, Botvinick EH, 5(3):31
Imaging of intrathoracic disease with indium 111-labeled leukocytes, Oates E, Ramberg K, 5(3):78
Imaging techniques for assessing pulmonary artery hypertension and right ventricular performance with special reference to COPD, Matthay RA, Shub C, 5(3):47

O

100-mm roll-film digitizer
Potential use of a 100-mm film digitizer and image processor for film archiving, Kono M, Yamasaki K, Ikeda M, 5(1):61

P

Pediatric patients
Pediatric digital chest imaging, Tarver RD, Cohen M, Broderick NJ, Conces DJ Jr, 5(1):31
Tuberculosis in infants and children, Stansberry SD, 5(2):17
Phlebotomy
Exercise-induced changes in left ventricular function after phlebotomy in patients with polycythemic COPD, Milne N, Light RW, Chetty KG, 5(3):68
Photostimulable phosphor technology
Preliminary experience with portable digital imaging for intensive care radiography, Marglin SI, Rowberg AH, Godwin JD, 5(1):49
Plain radiography
Plain radiographic evaluation of the aorta, Chen JTT, 5(4):1
Positron emission tomography (PET)
Cardiac positron emission tomography: The foundations and clinical applications, Chan SY, Brunken RC, Buxton DB, 5(3):9
Pulmonary artery hypertension
Imaging techniques for assessing pulmonary artery hypertension and right ventricular performance with special reference to COPD, Matthay RA, Shub C, 5(3):47
Pulmonary embolism
An unusual case of pulmonary emboli, LaManna MM, Burke G, Flicker S, Sumathisena, Maranhao V, 5(2):81
Pulmonary infection
Imaging of intrathoracic disease with indium 111-labeled leukocytes, Oates E, Ramberg K, 5(3):78
Pleural cryptococcosis, Conces DJ Jr, Vix VA, Tarver RD, 5(2):84
Pulmonary nodule, solitary
Analysis of the solitary pulmonary nodule by means of digital techniques, Chiles C, Sherrier RH, 5(1):55

S

Sarcoidosis
Hilar and mediastinal adenopathy in sarcoidosis as detected by computed tomography, Sider L, Horton ES Jr, 5(2):77
Storage phosphor technology
Current status of digital projectional radiography of the chest, Aberle DR, Hansell D, Huang HK, 5(1):10
Digital mobile radiography, Sagel SS, Jost RG, Glazer HS, Molina PL, Anderson DJ, Solomon SL, Schwarberg J, 5(1):36
High-resolution digital imaging with storage phosphors, Fuhrman CR, Gur D, Schaetzing R, 5(1):21
Newer imaging methods in chest radiography, Wandtke JC, 5(1):1
Surgery
The microbiology, chemotherapy, and surgical treatment of tuberculosis, Boyars MC, 5(2):1

T

Technetium 99-labeled isonitriles
Cardiac imaging with technetium 99m-labeled isonitriles, Sinusas AJ, Beller GA, Watson DD, 5(3):20
Transesophageal echocardiography
Transesophageal echocardiography in the assessment of aortic pathology, Shively BK, 5(4):40
Tuberculosis
The microbiology, chemotherapy, and surgical treatment of tuberculosis, Boyars MC, 5(2):1
The pathology and pathophysiology of mycobacterial infections, Haque AK, 5(2):8
Pulmonary tuberculosis in patients with acquired immunodeficiency syndrome, Goodman PC, 5(2):38
Radiologic manifestations of adult tuberculosis, Buckner CB, Walker CW, 5(2):28
Thoracic complications of tuberculosis, Winer-Muram HT, Rubin SA, 5(2):46
Tuberculosis in infants and children, Stansberry SD, 5(2):17

U

Ultrafast computed tomography
Ultrafast computed tomography in the diagnosis of aortic aneurysms and dissections, Stanford W, Rooholamini SA, Galvin JR, 5(4):32
